SUMMARY

Computer Science graduate and ASP.NET Core Backend Developer with hands-on experience building production-ready backend systems using .NET 8, Entity Framework Core, SQL Server, and Clean Architecture. Experienced in designing RESTful APIs, implementing complex business logic, integrating third-party services, and applying software design patterns to build scalable and maintainable applications. Strong foundation in software engineering, database systems, object-oriented programming, and data structures, with a focus on writing clean, reliable, and reusable backend code.

EDUCATION

Tanta University | *Bachelor Of Computer Science* Tanta, Egypt | **09/2022 – 09/2026**

- Minor In **Computer Science**
- Cumulative **GPA: 3.60/4.00**
- **Graduation Project:** ***ChromoSphere*** (Backend Developer) — Grade: **A** — A cloud-based cybersecurity platform automating penetration testing and phishing/social-engineering simulations to strengthen employee security awareness.

DIGITAL EGYPT PIONEERS INITIATIVE (DEPI) | *.NET Development Track* Tanta, Egypt | **06/2025 - 12/2025**
Ministry of Communications and Information Technology

- Completed a 6-month structured track covering C# fundamentals, T-SQL and database design, SQL Server, LINQ, EF Core, ASP.NET Core MVC, and ASP.NET Core Web API.

SKILLS

Technical Skills

- **Programming Languages:** *C#, C++, Python, SQL (T-SQL).*
- **Backend Technologies:** *ASP.NET Core Web API, Entity Framework Core, LINQ, ASP.NET Core Identity, JWT Authentication*
- **Software Architecture & Design:** *Clean Architecture, Repository Pattern, Unit of Work Pattern, Specification Pattern, Dependency Injection, SOLID Principles.*
- **Databases:** *SQL Server, PostgreSQL, SQLite.*
- **Development Tools:** *Git & GitHub, Swagger (OpenAPI), Postman, Visual Studio, SQL Server Management Studio (SSMS).*

EXPERIENCE

PRIME ACADEMY | *Freelancer Backend Developer* *Remote* | **05/2026 - 07/2026**

- Developed the backend of an online learning management platform using ASP.NET Core Web API and .NET 8, supporting students, instructors, and administrators.
- Implemented core business logic for course management, enrollment, orders, university management, coupons, and content workflows.
- Integrated Paymob payment processing with webhook-based verification and Bunny.net video streaming, while applying Clean Architecture and reusable backend infrastructure.

ABOHANAFY RESTAURANT | *Freelancer Backend Developer* *Remote* | **02/2026 - 04/2026**

- Developed the backend of a restaurant ERP and production management system using ASP.NET Core Web API and .NET 8.
- Implemented business logic for inventory, procurement, warehouse management, recipe production, employee shifts, and sales.
- Designed a multi-level warehouse architecture supporting inventory movement across the main warehouse, sub-warehouses, kitchen, order warehouse, and sales operations.

NESR COMPANY | *IT INTERN* *Zahraa El Maadi, Cairo, Egypt.* | **08/2023 - 09/2023**

- Completed an IT internship with exposure to different functions and day-to-day operations within a corporate technology environment.
- Developed a broader understanding of how technology teams operate and contribute to business operations within a large organization.

SUEZ OIL COMPANY (SUCO) | *IT INTERN* *Giza, Egypt.* | **07/2023 - 08/2023**

- Completed a one-month internship within the IT Department, rotating across key areas including Technical Support, Software Development, and IT Security.

PROJECTS

Prime Academy — Online Learning Management Platform

- **Technologies:** *ASP.NET Core Web API, .NET 8, Entity Framework Core, SQL Server, Mapster, Redis, ASP.NET Core Identity, JWT Authentication, Paymob, Bunny.net*
- Developed a production-ready backend supporting students, instructors, and administrators, with course management, enrollment, orders, coupons, university management, and content workflows.
- Integrated Paymob payments with webhook verification and Bunny.net video streaming, and applied Clean Architecture with reusable CRUD infrastructure to improve maintainability and reduce boilerplate.

Abohanafi Kitchen — Multi-Level Restaurant Production System

- **Technologies:** *ASP.NET Core Web API, .NET 8, Entity Framework Core, SQL Server, ASP.NET Core Identity, JWT Authentication*
- Developed the backend of a restaurant ERP system covering procurement, inventory, production, warehouse operations, employee shifts, and sales.
- Designed a multi-level warehouse and production workflow supporting inventory movement from the main warehouse through sub-warehouses and kitchen operations to final sales.

Atlas Template — Reusable ASP.NET Core Web API Template

- **Technologies:** *ASP.NET Core Web API, .NET 8, Entity Framework Core, SQL Server, ASP.NET Core Identity, JWT Authentication*, *Paymob*.
- Developing a reusable Clean Architecture Web API template to standardize project setup and eliminate repetitive backend boilerplate.
- Implemented Clean Architecture, Generic Repository & Unit of Work, Specification Pattern, API Versioning, JWT Authentication & Refresh Tokens, and strongly typed configuration.
- Developed reusable infrastructure for global exception handling, structured logging & observability, email delivery, data seeding, account management, and generic service/controller operations, reducing boilerplate while maintaining flexibility.
- **GitHub:** https://github.com/Mahmoud8276/Atlas-Template

CERTIFICATIONS

- .NET Track — Digital Egypt Pioneers Initiative (DEPI) | 06/2025 – 12/2025
- SQL: A Practical Introduction for Querying Databases — IBM (Coursera) | 05/2024
- Divide and Conquer, Sorting and Searching, and Randomized Algorithms — Stanford University (Coursera) | 04/2024
- Mastering Critical Skills in Data Structures using C++ — Udemy | 08/2024

VOLUNTEERING EXPERIENCE

Student Drawing Group, Faculty of Computers and Informatics | *Co-Leader* Tanta, Egypt. | **2023 - 2026**

- Co-led a student art group, coordinating creative projects and managing a team of fellow artists.
- Organized drawing workshops and collaborative projects, fostering creativity and engagement among members.

Microsoft Student Club (MSA) | *Co-Leader* Tanta, Egypt. | **2024 - 2024**

- Assisted in leading and organizing club activities, workshops, and technical events focused on Microsoft technologies.
- Coordinated with team members to plan training sessions.
